

April Family Project

Tail of a Kite

Due: Monday, April 16

Dear Kindergarten Family,

Spring is time to get out and enjoy the weather! With windy days ahead, there are sure to be kites in the air. Work as a family to create a kite. The kite can be any shape.

Remember to add the long beautiful tail. You can use tissue paper, cardboard, yarn, ribbon, paint, markers, glitter, streamers, etc.

First, collaborate - make a family decision about the shape of the kite and how to make its tail. You will measure the length of your tail and record it on the written response page.

Decide if you will be creating a kite that will actually fly or just for displaying. Be creative! After you have decided on your materials – let your imagination soar!

Remember to complete and send in the writing response along with your completed project.

Thank you!

The Kindergarten Team

My kite is shaped like a
_____.

We used _____

to create my kite.

My kite has a tail that is
_____ inches long.

Can your kite fly?

Yes _____ No _____
