

Family Tree Project

We will be talking about families in the next couple of weeks. In preparation for this, I am asking that you help us with a family project. I am sending home green construction paper with your child. Have everyone in your family (that lives in your house) trace their hand and cut it out. You may decorate your hand however you would like. You can write your name, put a picture of you on it, draw something on it that represents you, or just decorate it in a fun way. These handprints will be our "leaves" for our family tree. We will make the rest of the tree at school. Please return your cut out handprints in your child's red Daily Folder by Sept. 1st.

Have fun, be creative, and most of all, enjoy your family time together doing this project!

Mrs. Hylkema ☺
